“Policy on Substance Abuse”

Preamble:

Sri Devaraj Urs Academy of Higher Education and Research (**SDUAHER**) is committed to create and maintain a campus environment that is free of alcohol and ‘substance’ abuse. ‘Substance’ abuse harms students, threatens the safety of the environment, and disrupts the educational process and defeats the purpose for which a student is being educated. While The Academy takes a serious view of alcohol and ‘substance’ abuse on its campus, it strongly believes that the best way to maintain an appropriate campus environment with respect to drugs and alcohol is through preventive education about the dangers of drug abuse and compassionate attention to the needs of those who may require help with alcohol or other drug-related problems. To that end, The Academy provides on-campus support programs and services as well as information about related services that are available in the local community.

Introduction:

SDUAHER policy on ‘substance’ abuse and practices regarding the possession, use and distribution of substances is based on the laws of the Government. The use, possession or distribution of a ‘substance’ is banned on the campus, in its facilities, in the functions and programs organized /conducted by The Academy or its institutions. Although The Academy policies and practices emphasize a concern for the welfare of individuals, The Academy also recognizes the importance of maintaining the safety and well-being of the community as a whole. The Academy will take disciplinary action as per the procedures set out in the policy, against any member of its community, if he/she is found to consume, possess, sell, purchase, transport or distribute any narcotic drug or psychotropic substance. Students, teachers and non-teaching staff should also be aware that, in addition to Academy rules, they may be subject to criminal prosecution under the laws of the country. According to the Indian Narcotic Drugs and Psychotropic Substances Act (1985), it is illegal for a person to produce/

manufacture/cultivate, possess, sell, purchase, transport, store, and/or consume any narcotic drug or psychotropic substance. 2. It is the obligation of The Academy to ensure a safe environment to students and to protect them from abuse.
3. That the best way to maintain an appropriate campus environment with respect to drugs is through preventive education about the dangers and ill-effects of drug abuse and compassionate attention to the needs of those who may require help with drug-related problems.
4. Any student suspected of abusing substances is to be offered care.
5. Emphasis on rehabilitation of persons affected by drug abuse rather than use of punishment.
6. Recognizing the combined role of teachers, parents and care-givers in mentoring the student population and their overall development.

Prevention:

All the institutions of The Academy shall follow:

1. Conduct an orientation/talk at the time of admission, to educate and sensitize parents/guardian on:
 - a. Drugs and other external influences on young adolescents in general and students in particular.

Accordingly, The Academy views the use/abuse of alcohol and other drugs as a matter of both personal and community wellness and believes that any such behaviour warrants decisive interventions and enforcements.

SDUAHER expects that students will conduct themselves in accordance with basic principles of personal responsibility, respect for order, and consideration of the rights of others. Implied in these expectations is the understanding that students are responsible for making their own decisions and accepting the consequences of those decisions.
